Playwright's note, (continued)

I offer special thanks to my talented actors, who have responded brilliantly to a late call for their participation. They are dedicated and skilled professionals.

Thanks also go to the Cheltenham Art Center for their support; to the Hedgerow Theatre, which workshopped this play and helped improve it; to Philadelphia Dramatists Center, and particularly to fellow playwright Ed Shockley, who has always encouraged and assisted me; and to The Total Mating System, which printed this handsome program. I also thank my wife Martha for her assistance, despite the many demands of the show's preparation.

Lastly, I encourage you to listen to the message of *Info-Boy!*, which is not about living blindly but about taking the best we can from each situation which life gives to us. Enjoy the show!

Sincerely,
